

Mehlville Fire Protection District

24 hour notice is required for inspections. To call in the request:

call: **314 894-0420**

after the auto-attendant answers, **Extension 1720**

You are then in the voice mail box for inspections. Please clearly state your 8 digit Mehlville Fire Permit Number, the address and project for which you are requesting the inspection and whether this is for a framing or final inspection. You may also request AM or PM for the inspection and we will make every effort to facilitate that request.

Please do not call an inspector to request an inspection. This will probably slow down the process, depending upon when they get their messages and can call you back. If you need a specific time, you should talk to the inspector a couple days ahead of the inspection date to set up a time. If you only need a rough idea on a time, you can call the inspector the morning of the inspection, between 8:00 a.m. and 8:30 a.m. and they should be able to give you an approximate time.
