

## **Mercy South STEMI Team Recognizes MFPD EMS and St. Louis County PD For Cardiac Pre-Hospital Care**

In September of 2022, MFPD crews were dispatched to an unconscious person in a parking lot, and upon arrival we found St. Louis County Police Officer Jasmin Puscul performing CPR. Our team took over, and the patient was resuscitated. After performing an EKG, we notified Mercy South that we were on the way with a patient that had suffered a cardiac arrest and was actively suffering a heart attack. The team from Mercy South was ready upon our arrival, and the patient was in the cath lab in less than 30 minutes. Later that evening he was sitting up in bed, talking normally and ordering dinner. The STEMI team from Mercy Hospital South later paid us a visit to recognize the lifesaving efforts of those involved in the call. From right to left: Battalion Chief EMS Doug Weck, STL County Police Officer Jasmin Puluc, Captain Jason Hendricks, Fire-Medic Kory Snelson, Lieutenant-Field Training Officer Fred Trice and Captain Martin Becker. (Not pictured Fire-Medic Brian Torno.)
